

Earth Day 2007 in the U.S. Army Corps of Engineers Kansas City District

Kansas City District lake and recreation employees participated in two Earth Day events at Corps lakes in Kansas. At Hillsdale Lake, students from Hillsdale Elementary School participated in the 19th annual "Trees for the Future" tree-planting program on April 20. This year, park rangers presented Hillsdale Lake Volunteers Lloyd and Joyce Steele with a Presidential "Call to Service" volunteer award and plaque for the service they have provided to the nation and the U.S. Army Corps of Engineers. Also, more than 100 volunteers participated in the annual Clinton Lake Cleanup, held on April 28.
