

# U.S. Army Garrison Stuttgart Celebrates Earth Day

The Earth Day was celebrated on April 22 at U.S. Army Garrison Stuttgart. This day is the annual call for public attention toward environmental issues.

Army Earth Day exemplifies a daily commitment to the stewardship of the public resources entrusted to military care.

The Department of Public Works (DPW) Environmental Office supported Earth Day and offered some activities to local schools, these activities included: a trip to the Water Treatment Facility in Stuttgart Münster; a trip to Local Training Area near Panzer Kaserne to get some information about Fauna and Flora; a tree planting activity; an Earth Day poster contest; an environmental quiz.
