

Earth Day 2007 in the U.S. Army Corps of Engineers St. Paul District

A volunteer cleanup day was held for Gull Lake, Minnesota on April 21 to celebrate Earth Day. The cleanup day was established after campers asked the St. Paul District lake staff how they could help out.

A tree planting day to commemorate Arbor and Earth Day was held May 2 at the Winnibigoshish Dam Recreation Area, northwest of Deer River, Minnesota. Scouts from the Deer River/Grand Rapids troops participated with Corps personnel from St. Paul District in a reclamation project to turn the former damtender's homestead and construction preparation area into native grasses, trees and shrubs.
