

CAROL, CRAIG AND LIZ; THREE OF THE HARDEST WORKING ENVIRONMENTALIST IN THE ARMY. ACTUALLY THEY'RE ONE THIRD OF A TEAM THAT KEEPS FORT LEE, VIRGINIA IN TIP TOP ENVIRONMENTAL SHAPE

“We’re a medium sized installation and we have a very small staff that really accomplishes a lot to enhance the environment.” - Carol Anderson, Environmental Team

LIKE THEIR QUICK RESPONSE TO OIL SPILLS, LIKE THIS ONE AT THE FRONT GATE. AND THEIR TIGHT GRIP ON HAZARDOUS MATERIALS ON POST. NOT AN EASY TASK CONSIDERING IT'S A DoD PETROLEUM TRAINING SITE. AND AS YOU MIGHT EXPECT THEY'VE MADE SOME COSMETIC IMPROVEMENTS ON POST...BUT EVEN THEY SERVE A PURPOSE.

“Any pollution that can come through the site, these plants being vegetated will stop or slow it down to prevent it from reaching the watershed.” – Liz Sholl, Environmental Team

THE FORT LEE TEAM ALSO CAME UP WITH AN ENVIRONMENTAL ASSESSMENT FOR THE PRIVATIZATION OF UTILITIES, SPECIFICALLY DRINKING WATER. IT'S NOW THE TEMPLATE FOR THE REST OF THE ARMY. THESE ACCOMPLISHMENTS EARNED THE TEAM AN ENVIRONMENTAL QUALITY AWARD FROM THE SECRETARY OF THE ARMY. BUT FOR THIS TEAM THE GREATEST REWARDS ARE THOSE DAY TO DAY VICTORIES THAT GET THE JOB DONE, JAVIER HERNANDEZ, FORT LEE, VA.
