Subject: [Non-DoD Source] RAB Meeting - May 7 at 6 pm

Dear Neighbors,

The Army is planning to hold its next RAB meeting as a virtual meeting on May 7 at 6 p.m. This RAB is being conducted virtually to maintain social distancing as required by Wisconsin's Stay at Home order and protect the health of the community during the COVID-19 response.

The purpose of the meeting is to provide an update on current and near future efforts and to ensure everyone is aware the comment period for the Groundwater Remedial Investigation/ Feasibility Study (RI/FS) and Per- and Polyfluoroalkyl Substances Preliminary Assessment/Site Inspection (PFAS PA/SI) ends on May 15, 2020. We want to ensure everyone knows how to provide their input for consideration by the Army.

Thank you for your interest in the former Badger Army Ammunition Plant cleanup program.

Sincerely,  
Badger Cleanup Team
