Subject: June RAB Meeting

Thursday, June 20, is the next meeting of the Badger Restoration Advisory Board. Randy Cerar from the Army Environmental Command will be chairing the meeting for the Army and we will be looking for nominations/volunteers to serve as Community Co-chair.

As we mentioned in the email we sent last month, we have contacted all the organizations listed in the 2001 RAB ByLaws to obtain their representative's information. We haven't heard from all of them yet, but attached is the current list of RAB members. You'll see we have some new names.

At the June meeting, after the Army has provided a brief update on the current remediation activities and heard your concerns, we would like to discuss with the RAB members what we can do to improve RAB activities and align the Badger RAB operations to the RAB Rule.

We are still trying to catch up on the meeting minutes and have attached the draft minutes from the March meeting. Please review and provide any comments you have by email to [usarmy.jbas.aec.mbx@mail.mil](mailto:usarmy.jbas.aec.mbx@mail.mil) or call 210-466-1590.

Thanks for your continued support.

The Badger Cleanup Team
